

ONLINE TRAINING

Attend classes from the comfort of your home, office or anywhere with internet access – anytime! Each eligible operator may choose to take online training courses to enhance their skills and fulfill their PDH requirements. Fifty (50) online courses are available to choose from. Completion of one course is equivalent to 1 PDH, as approved by ADEQ.

Certificates with login information to the website will be provided at the workshop. You will have unlimited access to each of the following courses for up to one year upon receipt of certificate. Each course qualifies for One (1) PDH upon successful completion. Average course length: 1 hour.
